SHRIRAM PATIL

Full-Stack Java Developer

Shrirampatil.skncoe.comp@gmail.com GitHub.com Linkedin.com 9370944623 Pune , Maharashtra

PROFESSIONAL SUMMARY

Motivated Computer Science student building full-stack web development expertise, with strong foundations in frontend technologies including HTML, CSS, and JavaScript. Currently developing backend applications using Core Java and the Spring Framework to create scalable, secure, and efficient web solutions. Passionate about designing responsive user interfaces, building robust APIs, and continuously improving problem-solving and software engineering skills.

PROJECTS

Weather Dashboard Web App

- Tech: HTML, CSS, JavaScript, OpenWeather API
- • Built a responsive weather dashboard that displays real-time weather data.
- • Integrated a public API to fetch temperature, humidity, and weather conditions.
- • Implemented dynamic UI updates based on user search input.
- • Designed a mobile-friendly layout for improved usability.

Task Manager REST API (Learning Project)

- Tech: Java, Spring Boot, REST APIs
- • Developed a basic REST API to create, update, and delete tasks.
- • Implemented controller and service layers using Spring Boot architecture.
- • Tested API endpoints using Postman.
- • Gained hands-on experience with dependency injection and REST principles.

Library Management System

- Tech: Core Java, OOP, File Handling
- • Designed a console-based application to manage book records and users.
- • Implemented object-oriented principles for modular design.
- • Added file handling to store and retrieve data.
- • Improved data organization and retrieval efficiency.

EDUCATION

Smt.Kashibai Navale College of Engineering ,Pune — **CGPA: 8.21**
Bachelor of Engineering in computer science engineering — *Aug 2023 - May 2027*

Rajarshi Shahu Junior Science College,Latur — **66.33%**
HSC Class 12th — *Sept 2021 - March 2023*

Sri Sri Ravishankar Vidhyamandir,Latur — **99.20%**
SSC Class 10th — *March 2021*

SKILLS

- **Programming Languages:** Java, C++, Python, JavaScript, SQL
- **Frontend Development:** HTML5, CSS3, Responsive Web Design
- **Backend Development:** Core Java, Spring, Servlet(basics) Spring Boot(learning),REST APIs
- **Database:** MySQL
- **Tools & Technologies:** Git, GitHub, Postman, IntelliJ IDEA, VS Code, Maven
- **Core Concepts:** OOP, Data Structures & Algorithms, Exception Handling, Multithreading (Basics)
